Abhishek Bhattacharjee

abhi.papan.b2003@gmail.com | abhi.devPortfolio | linkedin.com/in/Abhishek | github.com/Abhishek

TECHNICAL SKILLS

Languages and Tools for Web: HTML, CSS and SCSS, Javascript,React js, Node.js, Express.js, Firebase,MongoDB, MySQL, Bootstrap, Tailwind CSS, React-Flowbite UI, Swiper js, Git, VS Code, Vite, Socket.io, Postman.
Web 3 Tools: Solidity, Remix IDE, Metamask.
ML Tools:Python, Numpy, Pandas, Matplotlib, Seaborn, Sckit-learn, Jupyter notebook.
Other Languages: Java, C.

PROJECTS

CryptoHouse | *React JS,Tailwind, Stripe, Public APIs and Firebase*   January 2024 – February 2024
- Developed a beginner friendly web application for Crypto investors.
- Got many positive reviews and appreciations from people.
- Github Repo Link

Scale-GPT | *MERN Stack along with Material UI and Openai API*   January 2024
- A customised and scalable AI chatbot using the openai API.
- Github Repo Link

Book-Store | *MERN Stack along with React Flowbite UI and Swiper JS*   January 2024
- Developed a fully functional Book Store web application in which we can insert new books, delete from our collections, see the trending books and lot more".
- Github Repo Link

Heart-Failure-Predictor | *Python, Scikitlearn, Numpy, Pandas, Seaborn and Matplotlib*   December 2023
- This is a machine learning model for predicting Heart failure of patients based on Logistic regression with StandardScaler .
- Github Repo Link

EDUCATION

Jadavpur University   Kolkata, India
Bachelor of Engineering in Electrical Engineering. Current GPA : 8.78   *2022 – 2026*

Abhinav Bharati High School   Kolkata, India
Class 12th CBSE (PCM with Computer Science). Grade: 97.6%   *2020 – 2022*

St Clare School   Kolkata, India
Class 10th ICSE. Grade: 97.4%   *2006 – 2020*

EXPERIENCE

Contributor   April 2023 – Current
Kharagpur Winter Of Code, Hacktoberfest 2023, Girlscript Summer of code 2023   *Remote*
- Started contributing on Open source Projects by participating on multiple open source events..
- Worked on multiple MERN stack projects, understood the Git workflow, and connected with many like-minded individuals.

Web Development Intern   August 2023 – September 2023
Codsoft   *Remote*
- Made multiple Responsive websites.
- Learned many new things on Asynchronous Javascript.
- Helped me to improve time management.

Postman API Fundamentals Student Expert   March 2023 – April 2023
Postman   *Remote*
- Learned about API development.
- Explored Backend Programming
- Learned about API fetching in the form of promises in Javascript.
